About This Content

Din's Curse: Demon War is the first expansion for the unique action RPG Din's Curse. Din's Curse is a single player and co-op multiplayer action RPG for Windows and Mac PCs with 141 class combinations (196 with the expansion), infinite number of dynamically generated towns, real consequences, and a dynamic, evolving world.

The demons of Aleria are furious! After the 4th Great War and necromancer Ciglio's death, the undead horde has been causing utter chaos, attacking everything that moves... even demons. Demonkind were quite happy when Serina, a human city, was overrun, but that was before thousands of human zombies poured into Kraval, slaughtering the huge demon city. Thus began the Demon War. Demons of all kinds are fighting back. They're hunting down and killing any undead they find. Oh, and they blame the humans for this entire mess. For spite, they razed Serina to the ground even though it was already deserted.

As a servant of the mighty Din, it's your responsibility to safeguard humans from danger. This was a hard task before. Do you have what it takes to save humankind from the Demon War?

Key Features

- Play the Demon Hunter class (now 196 total class combinations)
- Fight many new demons (3 new species, 8 new types, 40 new variants)
- Solve tons of new quests

-
- Help the NPCs as they interact much more with the world and each other
 - Experience many more world modifiers
 - Explore new environments
 - Interact with the world in new ways
 - Survive the Demon War
 - Basically experience a lot more of what makes Din's Curse incredibly unique
